Childhood Neurodivergence: Supporting your child with low mood

For parents/carers of children aged 0-18 years. Everyone has days when they feel low, this is normal. Sometimes this low mood hangs around for longer and starts to make it difficult for our children and young people to do the things that are important to them. This workshop will support you to have a better understanding of why neurodivergent children may be vulnerable to low mood, the warning signs, and provide you with strategies to support your child/young person.

Childhood Neurodivergence: Supporting Planning, Organising and Remembering

This workshop will explore cognitive differences in neurodivergent children such as planning, organising and remembering things. The workshop will consider how these differences can impact on day-to-day life and give advice on how parents/carers can support their children and young people with cognitive differences

Watch here: [Childhood Neurodivergence: Supporting Planning, Organising and Remembering](#)

[Childhood Neurodiversity – Self-help guide](#)

Childhood Neurodiversity: Understanding and Supporting Sensory Needs

What are the different sensory systems? What might sensory processing differences look like in children and teenagers? This workshop will answer these questions and explore how parents and carers can support a child's sensory needs.

We would really appreciate your feedback on this workshop, we have an online feedback survey which should take around 5-10 minutes to complete if you wish to do so: [Supporting Sensory Needs Feedback Survey](#)

Building Understanding and Supporting your Child with Tourette's/Tics

This workshop provides information about Tourette's and Tics in children and adolescents, dispels some common myths, and gives guidance on how you can best support your child/adolescent as they negotiate the highs and lows of life with tics.

Watch here: [Building Understanding and Supporting your Child with Tourette's/Tics](#)
[Childhood Neurodiversity Supporting your Child with Tourette's/Tics slides](#)

Childhood Neurodiversity: What You Need to Know as a Parent/Carer

What is neurodiversity? What is autism, ADHD and learning disability? Does my child need a diagnosis to get support? This introductory workshop will answer these questions and introduce where parents/carers can find advice and guidance for supporting their neurodivergent children. The workshop will also outline what you can expect having referred your child for consideration for assessment by the Suffolk NSFT teams (including the screening and assessment process).

Childhood Neurodiversity: Supporting Social Relationships

This workshop discusses social relationship differences for neurodivergent children, and how parents/carers can support their children with understanding and managing

social relationships. This workshop covers topics on friendship, family relationships and social relationships.

Watch here: [Childhood Neurodiversity: Supporting Social Relationships - YouTube](#)
[Childhood Neurodiversity Supporting Social Relationships Slides](#)
[Childhood Neurodiversity Social Relationships Resource Pack](#)

Childhood Neurodiversity: Supporting your Child's Education

For parents/carers of school aged children.

Many parents/carers have reported the struggles their children are facing in education. This workshop will provide advice and guidance on how parents/carers can navigate some of the challenges they will likely be facing.

Childhood Neurodiversity: Supporting Your Child with Anxiety

A workshop which explores valuable strategies and tips to help your child with anxiety. This workshop will explore what anxiety is, how this may present in neurodivergent children and offer practical advice and strategies to support your child in this area.

Watch the recording here: [Childhood Neurodiversity: Supporting your child with anxiety - YouTube](#)
[Childhood Neurodiversity - Supporting Your Child With Anxiety Slides](#)
[Childhood Neurodiversity Anxiety Resource Pack](#)

Childhood neurodiversity: Understanding and supporting sleep difficulties

Sleep difficulties can have a huge impact on a child's emotions, behaviour, learning and health. This workshop will explore sleep differences for neurodivergent children, and how parents/carers can support their children with sleep.

Watch here: [Understanding and supporting sleep difficulties Youtube](#)
[Childhood neurodiversity: Understanding and supporting sleep difficulties slides](#)
[Childhood neurodiversity: Understanding and supporting sleep difficulties Resource Pack](#)

Childhood Neurodiversity: Managing Parental/Carer Stress

Research suggests that parents/carers of neurodivergent children experience greater stress than parents/carers of neurotypical children. This workshop will explore additional stressors you may encounter as a parent/carer of a neurodivergent child, how to manage parental/carer stress and support your own wellbeing.
